Introducción

El Índice de artículos de investigaciones y otros trabajos académicos publicados por docentes afiliados a la Universidad Politécnica de Puerto Rico (1981-2026) pertenece a la serie de índices del proyecto de indexación de la Biblioteca de la Universidad Politécnica de Puerto Rico. Este proyecto tiene el propósito de proveer herramientas que den acceso rápido a los recursos de información. En esta ocasión la lista de docentes con investigaciones y otros trabajos académicos cuyo contenido es de importancia para documentar las actividades de la comunidad académica de la institución.

Los recursos de información incluidos en el índice son: Investigaciones, trabajos académico y publicaciones en los que aparecen como autor la facultad con afiliación Universidad Politécnica de Puerto Rico y/o *Polytechnic University of Puerto Rico* en sus escritos, datos biográficos o en la publicación. (artículos de revistas, ponencias, tesis, disertaciones doctorales, informes de investigación, afiches de congresos, libros, capítulos de libros y otros).

Recopilación de las fuentes de información:

Para esta edición se han identificado bibliografías de diversas fuentes de información, incluyendo: Referencias de la página web oficial de la Universidad, artículos publicados en la Revista Politechne, contribuciones en la Revista Polimorfo y datos de autores extraídos de la base de datos Scopus, una fuente reconocida a nivel internacional de resúmenes y citas académicas.

Actualización del índice:

Periódicamente continuaremos actualizando la información bibliográfica del índice. De no aparecer el nombre o trabajo de un docente en el Índice de investigaciones y otros trabajos académicos por docentes afiliados a la Universidad Politécnica de Puerto Rico, diríjase al personal de las Colecciones Especiales y Archivo Histórico de la Biblioteca al (787) 622-8000, ext. 266, 627 o escriba a la siguiente dirección: referencistas@pupr.edu

Herramientas para la indexación:

En la organización de las fichas bibliográficas se utilizó el programado de ENDnote 21, un gestor de referencias bibliográficas que se utiliza para crear y mantener fácilmente referencias bibliográficas procedentes de las diferentes fuentes de información. También permite elaborar automáticamente bibliografías en diversos estilos de citas, palabra claves, autor, título, etc. normalizados mediante la entrada de los datos. Se omiten los acentos y caracteres especiales en los nombres de los autores para atender las limitaciones del programa.
